RE	10/063,930 Restriction

COVER MESSAGE

Dear Dr. Holleran,
I found the original election and letter of 7/13/05
restricting examination to Broup 1 Claims 7-13, with some
reconsideration of the Linking claims 1-6.
Also, request to use e mail and a request under MPEP
707.07(j) consideation for pro se inventor.
Best and Thank you,
Prof.Pieczenik

Re: 1455,936 Filed 05/27/2002 Office Action 07/05/2005 7/13/05

Dear Dr. Ann Holleran,

I hereby elect to maintain claims 7-13. This is the Group 1 claims in your restriction requirement. I wish to traverse the restriction requirement.
However, at present you can examine the patent application with the linking Claims 1-6.

As we discussed I am a pro se litigant. As such I bring your attention to MPEP 707 (j) Which I cite below:
707.07(j) State When Claims Are Allowable [R-2]

1. INVENTOR FILED APPLICATIONS

When, during the examination of a pro se application it becomes apparent to the examiner that there is patentable subject matter disclosed in the application, the examiner should draft one or more claims for the applicant and indicate in his or her action that such claims would be allowed if incorporated in the application by amendment.

In addition, I would like to expedite prosecution by giving you permission to use e mail and waiving confidentiality re MPEP 502.03:

Recognizing that Internet communications are not secure, I hereby authorize the USPTO to communicate with me concerning any subject matter of this application by electronic mail. I understand that a copy of these communications will be made of record in the application file.

Since my experience over 20 years with the USPTO, has shown me that pro se inventors only receive on claim if there is patentable material at your discretion, than I wish you to write such a claim for me if you find patentable material and cancel all other claims. If you are not able to do that at this point in time please continue the examination as requested.

I request that you examine the claims 1-13.

Sincerely,

Dr. George Pieczenik
